Our full service offer

Are you looking for unique promotional items and a well-rounded equipment for your campaign appearance?

By customising advertising materials, you ensure your party's long-term presence with voters. From ballpoint pens to umbrellas, from raffle boxes to advertising banners. The variety of our range covers the extensive world of promotional items and advertising displays. Professional and coherent equipment will support you in the election campaign. Use our full-service offer with personalised consulting, our own webshop, storage capacities and worldwide shipping.

Textile design options

The uniform appearance is rounded off with custom designed textiles. Our in-house print shop implements a wide range of finishing techniques. Besides printing, embroidery is a high quality alternative for fabrics. Coats of arms, names, logos and many other motifs can be realised. We can also offer 3D embroidery. Furthermore, there is the possibility to design textiles by laser engraving. A laser is used to „burn“ the motif into the surface of the material. We are happy to advise you on the selection of suitable textiles and design options.

80.1018.3

Printing available on request.

Available colours:

Barstool "MIURA" designed by Konstantin Grcic

With this bar stool by Konstantin Grcic, there is nothing that is not innovative. An ordinary bar stool is a mixture of components and materials. "MIURA" is only one. And it's not just any material: reinforced injection moulded polypropylene is light, strong and, just as importantly, inexpensive. With its peculiar, angular and, at first glance, rather uncomfortable shape, "MIURA" is a star in the provocative oeuvre of Konstantin Grcic, a man whose imagination has inspired more than a few of his design colleagues. Unlike many others, however, Grcic is not just concerned with form: the chair is wonderfully comfortable, stackable and can also be used outdoors and indoors.

Material: polypropylene; Width: 470 mm; Total height: 810 mm; Seat height: 780 mm; Depth: 400 mm; Load capacity: up to max. 200 kg
80.0937.

Print method: without print

80.0165.1

Print method: digital print

80.0165.2

Parasol

The parasol is ideal to advertise your logo at sunny events. For just one piece your parasol can be customised. The steel pole (ø 22 / 25 mm) consists of two parts, which are connected with a click pin. The angle can be adjusted as the sun moves. The fabric is a water repellent polyester weighting 170 g/m² (+ / - 9 g). The base has a fill capacity of 15 l to stabilise the parasol.

Material: polyester; Diameter: 1800 mm; Water repellent: yes; Print: incl. full print; Features 2: 8 elements incl. valance

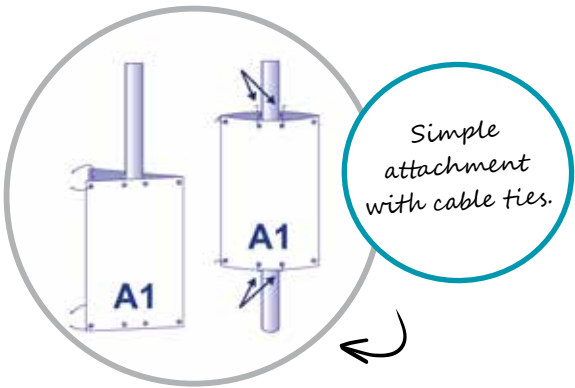

Features: without base
82.0018.30
Features: including base
82.0018.31

Also available with 2000 mm diameter.

3. Pack "Johann" away with your keys.

Release trolley and
remove immediately!

Custom request?
No problem!

Retractable Ballpoint Pen "Trinity GUM NFC"

Retractable ballpoint pen with rubberised triangular barrel and transparent shiny clip. An elegant and established writing instrument is now technically "tuned". With a built-in NFC tag, information can be distributed in a targeted, effective and modern way. Includes 1-color printing on the clip, initial cost for NFC TAG + coding and 1c printing of the NFC logo (at appropriate NFC TAG position). How NFC works: Near Field Communication, or NFC, is an international transmission standard for wirelessly exchanging data over short distances. To transfer data via NFC, the smartphone or tablet is held up to a pre-programmed NFC TAG, which then activates a specific application or function in the device, for example. In the "Inside NFC PENS", the NFC TAG is located directly under the inside NFC logo. This ensures the uncomplicated transfer of information to the smartphone or tablet. Combine analogue writing and advertising with the interactive world using the uma inside NFC PENS.

Material barrel: soft touch; Material tip: soft touch;
Features: with NFC tag; Print / Motif: 1c print; Print position: on clip
40.2047.

Uncomplicated transfer of your election manifesto via NFC to smartphone or tablet.

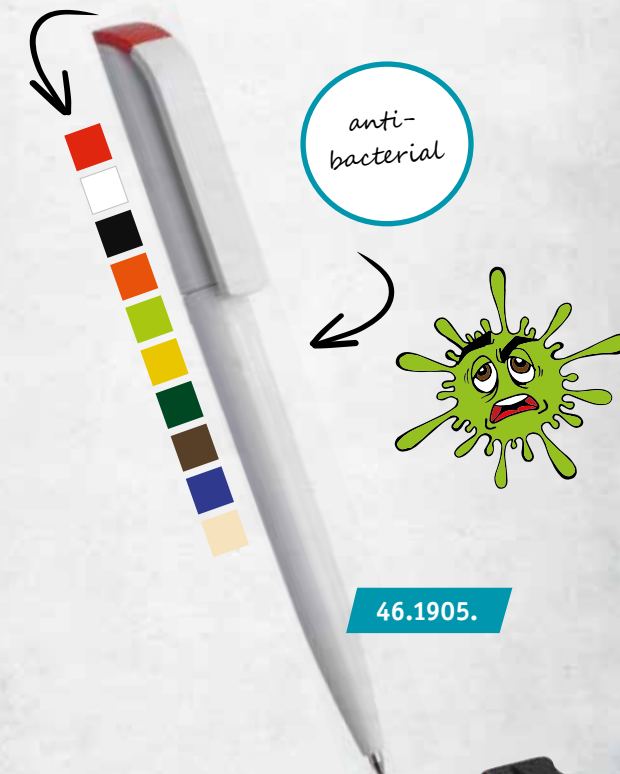

Antibacterial Twist Ballpoint Pen "Effect Green"

The antibacterial twist action ballpoint pen not only impresses with its outstanding writing quality, but also has an antibacterial effect. Equipped with a coloured or white stopper; Blue-writing large-capacity refill; Minimum quantity: 1000 pieces.
40.1905.

Promotional printing on request.

Due to the antibacterial surface, a multiplication of pathogenic bacteria is counteracted.

46.1905.
